Announces

THE 2010 CYRIL MCNIFF MEMORIAL SCHOLARSHIP PROGRAM

- The process for submitting an application for consideration for an IDTANA Scholarship 2010 has been changed.
- There is now an initial application phase and a second application phase.
- Please read ALL of the following information carefully and follow ALL steps as outlined below.
- DO NOT use forms or information from previous years.

Phase One.....Initial Application/Evaluation:

1. All complete applications received with all required supporting materials by the deadline will be evaluated by education professionals, including individuals who are not associated with the IDTANA.
2. The initial evaluation will focus on the academic transcripts and test scores. The evaluators will use a rubric to score each transcript in terms of academic rigor, final grades, grade point averages (GPA), and overall strength of academic history and preparation. Individual transcripts will not be compared to other transcripts for purposes of this initial evaluation but will be evaluated independently in terms of the rubric only.
3. Once all initial evaluations have been completed and a rubric score is determined for each applicant, a percentage of initial applicants will be selected to move forward (on the basis of the rubric score earned on the initial evaluation) to the second phase of application and evaluation. The minimum number of applicants who will be moved forward to the second phase of application and evaluation will be 30% of the total number of applications submitted initially; however, the committee reserves the right to increase the number moved forward to a higher percentage based upon the quality of the initial applications and the initial evaluation rubric scores awarded.
4. All initial applicants will be notified in writing of the decision reached at the initial evaluation phase, whether they are to be advanced to the second phase of evaluation or not.

Second Phase Application Procedures:

1. All initial applicants who are moved forward to the second phase of application and evaluation will receive written notification that they have been moved forward.
2. Included will be a complete set of directions about additional materials to be submitted as part of the second phase of application and evaluation, including, but not limited to: an updated transcript; a written response to a writing prompt; a list of extracurricular, volunteer, and service experiences; a list of paid work experiences; a list of Irish dance experiences (competitive and non-competitive); a letter from an academic teacher describing your commitment to academic excellence; and, a supporting letter from your Irish dance teacher.
3. All materials required for the second phase of application and evaluation will be due by an established deadline (TBA: close to April 1, 2010). Any materials received after that deadline will not be considered and the application will not be moved forward to the scholarship committee for evaluation or consideration.
4. All complete second-phase applications (with all required supporting materials) will be forwarded to the seven-member IDTANA scholarship committee. They will evaluate and score each complete application (including all of its component parts) according to a scoring rubric. The composite scores of the entire committee will then be used to rank order all second phase applications.
5. Second phase applications will be evaluated in two groups: (a) those submitted by students who are seniors in high school, graduating from high school in Spring 2010, and attending a four-year college program during the 2010-2011 school year; and (b) those already enrolled in a four-year college program who will still be enrolled in an undergraduate college/university program for the 2010-2011 school year.
6. Based upon this rank order list in each of the two groups of applications, all decisions about scholarship to be awarded will be made. The exact number of scholarships awarded, and the amount of each, will be determined by the committee.
7. **Not all applications advanced to the second phase evaluation will be awarded scholarships.**
8. All second-phase applicants will be notified in writing of the decision reached at the second evaluation phase, whether they are to be awarded a scholarship or not.
9. All applicants who are selected to receive a scholarship will receive additional information about the date and location of the official presentation of awards, as well as other important details regarding media announcements, etc.
